NGEN Named to CRN's 2026 MSP 500 and Security 100 Lists

Recognition Highlights Excellence in Managed Services and Cybersecurity Leadership

Lanham, MD – February 24, 2026 – NGEN, a leading managed IT and cybersecurity services provider, today announced it has been named to the **2026 CRN® MSP 500 list** and the **2026 CRN® Security 100 list**, both published by CRN®, a brand of The Channel Company.

The dual recognition reflects NGEN's continued commitment to delivering innovative managed services and advanced cybersecurity solutions that help organizations reduce risk, strengthen resilience, and drive business growth.

The CRN MSP 500 list recognizes leading managed service providers that deliver cutting-edge solutions and demonstrate strong growth, customer satisfaction, and innovation within the IT channel. The CRN Security 100 list honors top security providers with deep expertise in protecting businesses against today's evolving cyber threat landscape.

Being named to both lists underscores NGEN's security-first approach to managed services. The company integrates proactive monitoring, advanced threat detection and response, cloud security, compliance management, and strategic IT consulting into a comprehensive service model designed to protect critical infrastructure and support long-term scalability.

"We are proud to be recognized by CRN on both the MSP 500 and Security 100 lists for 2026," said Terry Speigner, President & CEO at NGEN. "This achievement reflects the expertise of our team and our unwavering commitment to delivering secure, forward-thinking technology solutions. As cyber threats grow more sophisticated, we remain focused on helping our clients stay protected, compliant, and prepared for what's next."

NGEN provides 24/7 managed services, cybersecurity operations, cloud infrastructure solutions, compliance support, and strategic advisory services to organizations across multiple industries. Its integrated approach ensures clients receive enterprise-grade protection and strategic guidance tailored to their business objectives.

The annual CRN MSP 500 and Security 100 recognitions serve as trusted industry benchmarks for identifying leading technology partners delivering measurable impact and innovation.
